DISCUSSIONS AT LUNCHEON TO BE LIVELY

The Richmond Industrial Commission meeting tomorrow at 12 at Martin's Grill is to be held on the main dining floor, as a large crowd is expected, the topics of discussion being of more than ordinary interest to citizens.

No letter of invitation is needed. All citizens, men and women who take an interest in Richmond, are asked to attend.

There are rumors that because of the special nature of some of the subjects lively discussions will arise. That some new lines of thought regarding certain local affairs are to be features is a prediction.

Parks and Playgrounds.

In regard to parks and playgrounds it is said that a recommendation will be made that people with blocks of lots or other property be asked to submit bids when the time comes to buy, the belief being that with competition, low prices will result instead of the high prices that come from going after any certain piece of ground. "Every dollar of excess paid for land for parks and playgrounds is that much taken from the children of our city and is a detriment to their welfare," is a statement made.

DR. T. A. BOYER TALKS TO LYONS

An entertaining talk by Rev. T. A. Boyer featured the weekly luncheon of the Lyons held yesterday. Rev. Boyer spoke in his usual eloquent manner and received a hearty response from his audience. Clinton Smith acted as chairman of the day. A special musical program was given and included concert solos by Captain Doctor of the Salvation Army, and selections by the Lyons' orchestra. Captain Turner of the Salvation Army was present and thanked the club for its efforts in putting over the recent benefit baseball game.

A letter was read from the boys at Camp-Laf-A-Lot, thanking the club for its gifts to the camp.

The Lyons' club will hold a business meeting on next Wednesday in place of the regular Tuesday luncheon.

LOUIS E. DAVIS ENTERS RACE FOR ASSESSOR

LOUIS E. DAVIS.
Well known business man of the western end of the county who makes announcement of his candidacy for the office of county assessor.

The rumors that have been current for some time, that Louis E. Davis, well known business man of the county line was to run for the office of County Assessor, were confirmed yesterday, when he formally made his announcement, as will be seen in another column of the morning's Record-Herald.

Davis goes into the fight as the result of urgent solicitation of people in all sections of the county, and he will make a thorough canvass. The candidate is a son of the pioneers, Mr. and Mrs. J. H. Davis, and was born and raised in Contra Costa county, and received his education here. He is now the head of the Western State Feed and Fuel Company, one of the leading concerns of the county.

Davis is conversant with the values of real estate in this county, and his friends assert that he will make an excellent official for the taxpayers of the county.

The candidate is a member of the American Legion, and a member of the Native Sons, Eagles and Foresters. After the war he retired with the rank of captain.

In speaking of his candidacy yesterday Davis said that his platform would be an equitable assessment of the property of the county, courtesy, efficiency and economy.

It is said that the encouragement he is meeting with in all sections is very surprising.

Rail Strike Is Imminent; 400,000 In It

CHICAGO, June 27.—A strike of 400,000 railway shopmen of the country will be called for July 1 unless the railroads agree to stay the \$60,000,000 wage cut due to the shopworkers on that date and to restore certain working conditions in effect, it was made known tonight through a telegram from B. M. Jewell, head of the Shopcrafts to the Association of Railway Executives.

Decision to call a strike came late today after lengthy discussion by the executive committee of the six shop crafts unions, based on the strike vote of the men thus far received.

After the program Steward Max Sheahan directed the serving of a satisfying Dutch lunch. The following last night were initiated: William Seigerson, Joseph Ross, Dr. Harry E. Peters, Emil Weber and Edgar C. Anderson.

Auto Horns Antioch and Asparagus

About a dozen automobiles bearing boosters for Antioch's Fourth of July celebration swooped down on Richmond last night and made the evening hideous with tooting horns and other auricular atrocities.

The attenuated and intermittent hicough of the wheezy flivver mingled with the guttural tones of the big town car and produced a melange of sound like unto a Marine band rehearsed before Volstead got in his death blow.

A lotta folks in Richmond telephoned into the Record-Herald to get the "low down" on the noise.

That asparagus town is planning to make good on the statement that Antioch will stage the only real county-wide celebration in Contra Costa.

Masching Case is Set For July 26

The case of the People versus Joe Masching yesterday definitely was set by Superior Judge A. B. McKenzis for July 26.

The bail was reduced from \$5,000 to \$2,500, on application of Masching's attorney, Wilbur S. Pierce. Pierce told the Record-Herald last night that he believes Masching will furnish the bail within a day or two. Masching is charged with the killing of Nick Gnochio, of San Pablo, on the highway near San Pablo several weeks ago.

Gnochio died as the result of injuries sustained when he was hit by an automobile.

A coroner's jury found this to be the fact.

Masching was indicted by the grand jury at Martinez and charged as the man who was driving the car that hit and mortally injured Gnochio.

Pierce & Carlson, of Richmond, attorneys for Masching, stoutly and consistently maintain that Masching is innocent of the offense charged in the indictment.

The case when called will attract wide interest in Richmond and in San Pablo.

Tom Carlson, II, Makes Arrival

The friends of Tom Carlson, popular lawyer and Elk of this city, are very much interested in the announcement that a fine baby boy was born to his wife at Providence hospital, Oakland, Monday.

If the youngster is as precocious as his papa, he probably will be qualified to serve as a page in the assembly next Winter, and then Casey and Junior can join in singing, "Ain't We Got Fun?"

Mrs. Carlson and the baby are getting along fine.

Man Whose Counsel Objected To Women Jurors Plead Guilty

The three dozen women drawn on of the ladies by charging that "implied Fort Bragg bar, charged with bootlegging, and to whom exceptions were taken by Tom Carlson, Serpa's counsel, as being evidence of "implied bias" on the part of Officer Shirley who drew the jury, if they expect to qualify yesterday and sit on the case, had their hopes shattered.

Serpa entered a plea of guilty yesterday, before Police Judge C. A. Odell, and was fined \$150, which he paid.

Hary Record, bartender for Serpa, plead not guilty, and the case against him was dismissed.

Women Were on Hand.
Last week the women, 36 in number, complied with the process of the court, and were on hand to answer questions of counsel for the city and for the defense.

And then it was that Attorney T. M. Carlson hurled a bomb into the midst

to make, have not been made public.

Prominent Women, Too.
There were many prominent women among the thirty-six, and some of them expressed sharp pique and chagrin at the turn of events.

Serpa is proprietor of the Fort Bragg bar at Macdonald avenue and Sixteenth street, and he and Recorder were taken in the far-flung raid which netted ten men, one woman and a quantity of drinkables which the police said "filled three cells" at the city jail some weeks ago.

Women present yesterday were interested "lookers on in Vienna," and what comments, if any they had to make, have not been made public.

FOREIGN FINGERS IN THE PIE

Several wholesome truths which it would pay the public well to ponder are contained in a statement by Jonathan Bourne, Jr., president of the Republican Publicity Association. Says Mr. Bourne: "It is not surprising that foreign diplomats, as charged by Senator Watson of Indiana have been interfering in matters of domestic concern to the United States. They had the pattern aptly drawn for them in 1918-19 when an American Chief Executive, perceiving on a mandate from our people which not only did not possess, but which in the congressional elections of 1918 had been explicitly denied him after he had earnestly appealed for it, went abroad and attempted to regulate the domestic affairs of foreign nations. And to encourage foreign interference in our domestic affairs the diplomats and foreign representatives guilty thereof have had little encouragement from a group of internationalists still active in this country."

Foreigners are coming here and telling us how to run our country and how to conduct our government, declared Senator Watson, and what have we the to do, and are interfering, I think, unjustly, in our domestic affairs. I call attention to the singular fact that the men who tried to get us into the league of nations are the ones who are trying now to defeat this bill (the tariff) trade and internationalism react in opposition to it.

Not only that, but there is evidence to show that foreigners are taking a hand in writing our school histories or having them prepared by writers of internationalist tendencies, to the end that the youth of the land may look upon the achievements of the American nation as ordinary and the American leaders in war and statecraft as mediocre, even venal. This is all a part of the game to break down the spirit of nationalism.

The criticism of Senator Watson will undoubtedly have considerable effect in arresting the attempt of foreign diplomats to take the key from our hands and open up our ports to free trade. Shortly after the Senator's speech it was announced that the British ambassador would leave the United States on an extended vacation. He no doubt hopes that the matter will have blown over ere his return and that may be true as far as he is concerned, provided there is no repetition.

But the ambassador from Italy, Signor Ricci, comes here to observe diplomatic protocol. He declares that tariff duties are an international problem, and as such are a proper subject for discussion by a diplomatic agent of a foreign country. That may be true in a limited sense, but the proper place to discuss them is the office of the Secretary of State, and not on the stump or in public halls. If the Democratic party had one-half the patriotism that was possessed by that party 24 years ago, it would not encourage a foreign ambassador to side with it on a domestic issue.

In 1898 Lord Sackville-West, the British minister to the United States went no farther than to advise a correspondent, supposedly of British origin, to vote for the re-election of Cleveland. "On the fact becoming public, that doughty democratic president peremptorily dismissed West as persona non grata. Sackville-West wanted Cleveland re-elected in order that free trade might be perpetuated and the British manufacturers might retain control of certain trade in the American market. Signor Ricci may well take heed from Sackville-West's fate. No American representative in Italy would display the execrable taste of interfering with Italy's tariff law, which is itself highly protective."

The startling news comes from Dublin that armed miscreants have cut off the whiskers and moustache of Darrell Maggis. By the high heavens, these Irish outrages have got to stop.

Another perfect incongruity: A 200 pound beef eater with a couple of radio earbuds listening in to the broadcasting of a bedtime fairy tale.

Trotsky now contradicts himself by saying war is impossible. Having Trotsky contradict himself makes the matter unanimous: war or no war.

"The Servant Paper on Disarmed Wire," says the esteemed World. We hope for the sake of the proprietors, it was well paper. Or possibly a blanket subpoena would answer the purpose.

ANENT THE FUSS

Why all this fuss over the raising of a campaign fund? One would think, after reading Senator Harrison's talk over the announcement that the Republicans are to collect half a million dollars to be spent in the fight for Congress seats, that such a thing as a campaign fund never had been heard of before. Whereas, money always is spent in election contests, and a great deal is needed for honest work. Senator Harrison declared that the Republicans are raising half a million for the purpose of buying the election. Nonsense! Half a million dollars would not buy a dozen contested seats in the House of Representatives, and doubtless the Republicans will spend far more than that sum in the coming nation-wide contest. Money is used legitimately in elections, not in Mr. Harrison's own state, for that is so one-sided that the opposition to the Senator's party amounts to nothing. But in the northern states, where men do not go to the polls every election day like a flock of sheep and blindly vote the same ticket without question or consideration, as they do in Mississippi—arguments must be offered, and more must be done. Headquarters are to be rented, clerks hired, printing which is costly, must be paid for, and district workers are to be financed. If Senator Harrison persuades Congress to investigate this half-million fund which Republicans have raised, or will raise, the conclusion will be that it is not enough; that the fund is entirely too small. Republicans will spend considerable cash in the coming campaign; so will the Democrats, and it will be spent for proper purposes. The bigger the funds the bigger the vote will be; and that is what is desired—a full vote.

"While debating the tariff on ferro-manganese today several senators made some pertinent remarks on the scantiness of women's clothes." Washington political gossip, all too evidently serious.

"Pertinent relating to or properly bearing on the matter in hand."—Standard Dictionary. Somehow these two authorities do not agree.

Senator Watson admits that he inadvertently misquoted the President. This leads to the thought that perhaps Mr. Daugherty was right and that the Senator is afflicted with the inadvertent habit.

Words From Home

Statements That May Be Investigated. Testimony of Richmond Citizens.

When a Richmond citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Richmond resident. No stronger proof of merit can be had.

A. H. Thompson, railroad engineer, 248 Fourteenth st., Richmond, says: "Some years ago my kidneys got out of order. Riding in an engine caused me to have severe backaches and soreness over my kidneys. It hurt me to stoop over."

Don't Neglect Kidney Troubles!

Gravel, Diabetes and Apoplexy Most Dreaded Diseases

Neglect of any derangement of the kidneys is dangerous in the extreme. Kidney trouble is Nature's warning against the approach of Bright's disease, diabetes, gravel and apoplexy—all diseases that are eventually fatal in their effects. Read what Mr. A. Fillingim, R.F.D. No. 2, Wheeler, Ill., says:

"I was a great sufferer from kidney and liver derangements for several years. The pains in the back were almost more than I could endure, and the whole digestive system was upset. Though many medicines were tried, I never obtained permanent relief until I used Dr. A. W. Chase's K-L Pills. It is a pleasure to recommend so excellent a medicine."

You can buy Dr. A. W. Chase's medicines at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M.D., are on every box. This trade mark is your protection against substitutes and imitations.

DOCTORS CLAIMED RECOVERY WAS ALMOST A MIRACLE!

Woman Facing Certain Death from Nervous Disorder Discovers Remedy in Time

Nervous disorders are on the increase. Men and women compelled to go out into the world to battle for a living quite often neglect their health to such an extent that a breakdown is the inevitable result.

Such neglect is criminal. In many instances it leads to fatal consequences. When you have moody spells, feel depressed, begin to have distaste for business or social duties, when you cannot sleep at night—these are sure signs of nervous ailments and should be checked.

Read below of the experience of one woman who, according to her own testimony, was

facing death, but who fortunately discovered the right remedy in time, and which brought her back to health and normal strength:

Miss Rena B. Crossland, Kempt, Queen's Co., N.S., writes: "I feel it a duty as well as a privilege, to tell of the wonderful benefits I derived from the use of Dr. A. W. Chase's Tonic Pills. In March, 1917, I had anæmia of the brain and the mental and physical suffering I endured is indescribable. I had treatment from three doctors, and for twelve days was unconscious; while for three months I was fed and cared for like an infant. My mother was so anxious for me to use Dr. A. W.

MARSHAL VEALE FOR JULY 4

MARTINEZ, June 26.—The City of Antioch is preparing for one of the most elaborate Fourth of July celebrations in the history of that part of the county and various sections of Contra Costa are planning to participate in the festivities.

The celebration is being given under the auspices of the Harding Post of the American Legion, of that place and many unique features have been arranged by the committees in charge of the event.

Sheriff R. R. Veale, who has probably taken an active part in working for the success of more celebrations in this county than any other individual, has again been distinctly honored by being named Marshal of the Day and will be in attendance during the entire celebration.

The celebration next week will be the first time in several years that Antioch has held a Fourth of July festival. Given under the direction of the American Legion with the significance attached to an Independence Day celebration fostered by the boys who fought "over there," the success of the gala event planned by that community is assured.

With his usual interest in all events of this kind given in the county and particularly one promoted by the American Legion, Sheriff Veale has been co-operating with the Legion committees in Antioch in arranging for special attractions and one of the big features of the event will be a Marine Band from Mare Island that was secured by the Sheriff through the kindly offices of Congressman Charles F. Curry.

This will be one of the few times that a Marine Band has played for such an occasion in the State as it is only with the approval of the Secretary of War that government bands are permitted to participate in celebrations.

Martinez Plans Real Holiday

MARTINEZ, June 27.—Practically a three day holiday will be observed there over the coming week end.

Announcement was made on Tuesday that twenty-five local stores and business houses will remain closed all day on Monday, July 3rd, in order to permit employees a three-day day vacation from Saturday afternoon until Wednesday morning.

A canvass of the city was made on Tuesday and practically every establishment agreed to close for the three days.

As a result of the agreement to close for the three days, there will be a general exodus of people from here on Saturday afternoon. Many parties are being made up at the present time for various points of interest about the central part of the state and many people will go to the seaside and mountain resorts.

Insurance Agents Of County May Form Organization

Steps are being taken by L. A. Van Tegen, manager of the membership department of the California Association of Insurance Agents, to organize the insurance agents of Contra Costa County. Van Tegen is planning to call a meeting in the near future to be attended by all agents affiliated with the state association. Van Tegen was a visitor here yesterday. He was born in Martinez and his brother is a large property holder there.

It's best to say "SHINOLA"

Making an Asset of Difficulties

A great opportunity is now before American business—the opportunity of making a big and permanent asset out of the very difficulties of the present situation. The conviction that this can be done is extremely heartening. It is enough to put a new thrill of life and activity into every form of industry.

From one point of view the present situation is by far the most desirable, the soundest, the sanest, and the most hopeful this country has ever seen. Why? Because it brings into bold relief, through sheer necessity, the latent power to create conditions as we would like to have them.

The curtailment of Demand for the products of industry brought us face to face with the question, hitherto ignored, as to what causes demand. Then it was discovered that Demand was a created thing, and that more of it could be created in almost any direction—if enough of the right effort were applied.

Chief among the means of creating Demand is now seen to be Advertising. Whenever you find a big demand for any product you find, invariably, that the demand for that product has been stimulated by human effort, and chiefly through advertising.

It is obvious to any one who will think it through that the present demand for any product could be substantially lessened if it were possible to eliminate all forms of advertising—including pictures, displays, and word of mouth, as well as printed and painted messages—and just let that product depend on the natural or unstimulated demand.

And it is equally obvious that a demand for any worthy product can be created and stimulated by means of Advertising.

This fact puts within the hands of the business man the means of creating his own market. That would be the biggest asset he could have—an assured market for all he could produce.

At intervals I suffered severe pleurisy pains which began in the right side of my chest and ran around under my arm into my shoulder blade. It was both painful and difficult to raise my arm. I had taken various sorts of treatment for the trouble, but had found no relief. Now, after seven weeks of the FONG WAN HERBS, the pain in my chest is entirely gone and I feel quite well. I bought the herbs in packages and cooked them as home.

Hearing of the wonderful cures Dr. Wong Him has made I thought I would give him a trial. After going around to different doctors, none seemed to know what ailed me. But Doctor Wong Him did. He has just cured me of a bad case of Diabetes and Kidney trouble.

March 16, 1932.
I suffered from dysentery and difficulty breathing, my bowels moving constantly with bloody discharges. I also had merruag, indigestion and my stomach felt as though there was a piece of lead in it. Calling to get relief elsewhere, I took the herbs of the FONG WAN HERB CO. for two weeks. My former complaints have left me entirely and I am now enjoying good health.
MRS. F. J. SNOWBERGER, 1409 Madison St., Oakland, Calif.

Oakland, Feb. 8, 1932.
At intervals I suffered severe pleurisy pains which began in the right side of my chest and ran around under my arm into my shoulder blade. It was both painful and difficult to raise my arm. I had taken various sorts of treatment for the trouble, but had found no relief. Now, after seven weeks of the FONG WAN HERBS, the pain in my chest is entirely gone and I feel quite well. I bought the herbs in packages and cooked them as home.

LAND OF VIKINGS NOWADAYS IS "HEALTH RESORT OF EUROPE"

AMERICAN FREIGHTER IN THE PORT OF CHRISTIANA

Norway, the "land of the midnight sun," with its beautiful fjords, valleys, snow capped peaks and waterfalls, is getting her share of the American summer tourists. Regular sailings which include visits to Iceland, the North Cape and the fjords, and special tourist tours to Spitzbergen, are proving popular and bookings are heavier than the record season of last year. The land of the Vikings has also been known as the "health resort of Europe." The summer season has true spring weather, with an equable and temperate climate and its highlands, ranging from 2,000 to 4,000 feet above sea level, have a clear, dry and most bracing atmosphere. Special preparations made for tourists include hotels, reception and posting stations, highways and railroads to the remote parts of the country and to the points of interest.

DUPLEX CONSTRUCTION "It's Concrete"

The new way—permanent building block, forming monolithic walls. Fire-proof and damp-proof; cool in summer and warm in winter.

Cheaper and better than either brick or tile, and no more expensive than good frame construction.

These blocks are not hollow, but each a solid piece of concrete, 2 1/2 to 4 inches thickness and 8 by 16 inches. To see these blocks manufactured is a revelation.

Home builders should investigate.

Call Richmond 156 and a representative will call, bring block with him, and explain the new method to you. It will not only interest you but will save you money.

keep friction where it belongs

Friction consumes power and develops heat and wear.

Sometimes friction is utilized. In the automobile the friction of the clutch transmits the power of the engine to the rest of driving wheels, the friction of the tires and the road surface propels the machine, and the friction of the brakes stops the car. Friction should be confined to the parts named (the clutch, the tires and the brakes), if possible.

Lubricating oil used in the automobile to prevent friction between all moving parts in direct contact has friction within itself. This friction has to be overcome by and uses up engine power. The heavier the oil the more its internal friction, the less power it leaves for useful work.

Increasing Power, Speed and Gasoline Mileage

It may be proved that as much as 20% of the power at the driving wheels may be lost through the use of an incorrect oil.

The ideal oil is the thinnest oil which will keep the bearing surfaces separated and at the same time offer in itself the least frictional resistance to the engine power going to the driving wheels.

In addition, this oil must have stability to resist engine heat and it must be pure.

Zerolene meets the conditions perfectly. Made from selected crudes by our own patented high-vacuum process, it has great "oiliness," which causes it to cling to bearing surfaces while offering in itself a minimum of frictional resistance to the engine power; it has great stability to resist engine heat, and it is pure.

Zerolene reduces friction, and permits the development of the maximum power, speed and gasoline mileage of the car.

Salts if Backache and Kidneys Hurt

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney regions it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, headache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink. Ad-
